

Microphotography Specialist [Extreme Macro]

Born in Madrid in 1960, he currently resides in Malaga, Spain.

With extensive experience in the photographic world, he has dedicated the last ten years of his life to this field of microphotography, currently being one of the greatest specialists in "extreme macro" in Spain, and even in the world, having offered various exhibitions and talks on this photographic specialty, such as the talks given at the Faculty of Biology of the University of Seville, for the General Foundation of the University of Malaga, or the one recently taught within the framework of the Alumni Chair: Macrophotographic Visions, of the National University of Colombia; being an administrator or specialist of some of the largest existing groups in this field in social networks and internet forums.

His photographs and articles have been published in many media, both in print and on the internet, for example:

- The Sun, The Telegraph, The Guardian, DailyMail, Digital Photographer Magazine, Wild Planet Photo Magazine, Daily Star Sunday, Photography Masterclass Magazine, en Reino Unido
- El País, Diario SUR, XL Semanal, Dzoom, and National Geographic in Spain
- PM Magazine, Stern and Terra Mater in Germany
- Caption Magazine in Chile, FOTHOMAGAZINE in Costa Rica, RHEA Magazine of the Sergio Massaro Photonature School in Argentina, and in many other countries, such as Czechia, Poland, China, Mexico, etc.
- He has even contributed to science books, such as the one entitled "The Science of Animals: Inside their Secret World" published in 2019 by the Natural History Museum in London.

He has also been recognized with numerous awards in his specialty, such as:

In 2019 he won sixth place in the world's most prestigious microphotography competition, the Nikon Small World, with a photograph of a small white-haired spider, which has been published in numerous media around the world.

He has been considered three years in a row, in 2020, 2021 and 2022, as one of the three best macro photographers in the world in the prestigious 35Adwards International Photography Competition among 123,000 participants from 173 countries, obtaining in 2020 and 2022 the first place as the best macro photography of the contest, or the Gold Medal also obtained in the macro category at the II International Photo Contest Berdychiv Photo Vernissage 2020 in Ukraine.

Also in 2020, the magazine Tec Review, a publication of the Instituto Tecnológico y de Estudios Superiores de Monterrey (Mexico), edited and published by Grupo Expansión, received the gold medal in the category of "Photography", for the portfolio "The beings we don't see" based on his extreme macro photographs, in the 55th edition of the Editorial Design Association (SPD, which recognize the best in editorial design in the world.

In 2021 he has also received the IPA Award (International Photography Awards) as the best nature photographer of the year in the non-professional category, one of the most ambitious and complete competitions in the world of photography today.

In 2022 he has been awarded an Honorable Mention in one of the most prestigious International Nature Photography Competitions, the 32nd Edition of the María Luisa Memorial in Spain.

In 2022 he has also participated in a Museographic Project for the Invertebrate Pavilion of the Barcelona Zoo with the company Explainersgroup, which has had his photographs and collaboration in the project and which can now be visited in Barcelona.

In 2023 he has been selected among the 50 members of the jury, made up of photographers from 50 different countries, to judge the prestigious 8th International Photography Competition 35Adwards

Also in 2023, he has been awarded in the prestigious EVIDENT Image of the Year Award 2022 (Global Scientific Light Microscopy Adwards) Competition with the EMEA (Europe, Middle East and Africa) global regional award, an annual competition of the Olympus subsidiary that recognizes the best in scientific imaging around the world.

OF HIM THEY HAVE SAID:

..."A gallery that transports you to a world whose existence is almost unknown... Sensational... Unsurpassed in technique, composition, lighting... Truly MASTERFUL !!"

..."One of the best macro photography galleries I've seen so far. Exceptionally good images, both in technical and design terms. Absolutely great."

..."Thank you for taking me on a trip to other worlds, which I photograph masterfully. A real photography MASTERCLASS. "
